Summary

I'm a backend developer specializing in **Go, Ruby, and Laravel**, with a strong focus on **scalability, automation, and DevOps**. I've built and optimized **REST APIs, CI/CD pipelines, and backend systems** to improve performance and efficiency. My experience includes designing secure architectures, streamlining deployments, and ensuring smooth backend operations. I thrive on solving complex backend challenges and delivering reliable, high-performance solutions.

Skills

PHP 8 • Laravel • Go • SvelteKit • Ruby • Bash • CI/CD

Work Experience

backend developer

Sep 2024 – Dec 2024 • 3 mos

Microweber • Contract

Remote

Technologies: Laravel • PHP • CI/CD

At Microweber, I contributed to the development and optimization of our Laravel-based CMS and website builder, ensuring high performance and seamless functionality. I played a key role in backend development, API integration, and database optimization.

Backend Developer

May 2023 – Aug 2024 • 1 yr 3 mos

Faveo Helpdesk • Contract

Remote

Technologies: Laravel • PHP 7 • CI/CD

At Faveo Helpdesk, I worked on enhancing the Laravel-based ticketing system, improving its scalability, performance, and user experience. My role involved backend development, database optimization, and API integrations to ensure seamless support management.

Projects

Brevity – AI-Powered PDF Summarizer

Dec 2024 – Dec 2024 •

Technologies: Laravel • MySQL • SvelteKit • Supabase • Generative AI

Brevity is an advanced AI-powered PDF summarizer that converts lengthy PDFs into concise, tailored summaries. You can customize the level of summarization, specify key sections or pages, and receive the output as another PDF. Whether you need a quick overview or an in-depth breakdown, Brevity makes document processing faster and more efficient.

SWIFT2FA

Oct 2010 – Oct 2025 • 15 yrs

Technologies: PHP 8

Swift2FA is a secure and easy-to-use PHP library for implementing two-factor authentication. It supports various authentication methods, including:

- Authenticator apps (Google Authenticator and others)
- Email authentication via SMTP with PHPMailer
- SMS-based authentication using services like Twilio

Education

Bachelor's degree: Computer Science

Dec 2023 – Nov 2027 • 3 yrs 11 mos

university of ilorin

Ilorin,

Grade/GPA: 4

Languages

English (Full professional proficiency)
